
MENGOT DURAN

FRONTEND SOFTWARE ENGINEER

PROFILE

I am a programmer with over 3 years of experience providing support to over 30 other members and interfacing with facility management and IT. I possess strong multi-tasking skills, with the ability to simultaneously manage several projects and schedules. Excellent public-facing point person for clients, customers, vendors, and equipment and service providers. Tech-savvy and efficiency-focused.

EXPERIENCE

Front End Developer at [NOBISOFT](#)

November 2021 - 2023

I have been building websites for a year now with utmost efficiency and accuracy. My major role is to satisfy my customers with whatever it takes and make sure they have the

best of what they are asking for. Specialties include chat conversations, implementing SSO, and developing login pages.

Front End Developer at [KAEYROS-ANALYTICS](#)

July 2022-2024

As a dedicated front-end developer, I have a proven track record of building and maintaining complex web applications. I specialize in creating responsive and user-friendly interfaces using modern technologies like React, TypeScript, Next.js, and Tailwind CSS. My work focuses on delivering seamless user experiences, optimizing performance, and ensuring accessibility. I have successfully collaborated with cross-functional teams to develop scalable solutions, integrating with various backend services and APIs. My expertise includes state management, responsive design, localization, and implementing Single Sign-On (SSO) with Auth0.
